6. Farm residents

For all the animals here this is their home, we would ask that you respect their space and don't torment or chase any animals. If they come to you by all means pet them but please do not try to pick up, catch or give out to any animals. Remember that all animals can bite and be unpredictable!

7. Dogs and Children

Both dogs and children are welcome here. However both need to be kept under strict control. If dogs are causing a nuisance, are worrying farm residents or do not get on with resident dogs you may be asked to return them to your car. At all times dogs must be kept on a lead. Children must not be allowed to wander unsupervised. This is a working farm and farms are dangerous, this is **not** a playground!

8. Gates and fences

No one is permitted to pass through any gates with the exception of the entrance gates without invitation. This includes the arena gates, the arena is a staff and rider only area. All the fences here are electric so please take care not to touch them (a shock from the fence hurts!).

9. Staff instructions

Please follow instructions without question. Do first, ask questions later. And if in doubt ask. We are here to help.

10. Clothing for bystanders

Parents and bystanders are reminded that this is a working farm and at all times visitors should wear appropriate clothing and particularly footwear. A good sturdy shoe is essential, open toed shoes or soft topped shoes are not safe for farm wear. Remember horses are big and heavy animals and can do serious damage if they stand on a bare foot.

Loose and flapping clothes are dangerous in the farm environment and can spook or frighten the horses. Umbrellas should never be used as particularly when being opened they can startle the horses. The "Club House" is open for your convenience and you can get a complementary tea or coffee however in these COVID19 times only two people or one social unit can enter at one time. Masks are compulsory please grab and go do not wait in the "Club House".

C. What to Wear

For horse-riding, we advise clients to bring a good, well-fitting approved riding helmet (please see standards below), suitable footwear, a body protector and a waterproof jacket. These are available in various models, makes and materials. Here are some examples of what is suitable and not suitable for riding.

1. Footwear

Ideal footwear are boots with a flat sole and raised heel. Trainers/runners without heel or hiking boots with a rough grip sole are not permitted.

2. Headwear

The riding helmet must have one of the following labels: PAS 015:1998 or 2011, ASTM 1163, or Snell E2001, with the official Snell label and number. Helmets bearing only "EN 1384" only, can **not** be used. Please see the "BHS Approved Centres, Hat Guidelines 2019" below.

For cross-country jumping, the helmet must be a skull cap (no peak) with one of the above labels. When buying helmets we strongly recommend skull caps as they are suitable for **all** activities. We have a limited number of helmets for clients who have not yet purchased a helmet. We strongly advise purchasing a new approved fitted helmet fitted by a professional qualified fitter. Second hand helmets are not recommended as their history and fit can be uncertain

Examples of helmet styles:

Suitable for all activities

Not suitable for cross country riding

BHS Approved Centres and BHS Assessments Hat Rules 2023 v1

Hats must meet ALL of the requirements of ONE of the following rows:

	Standard and Date	Quality Assurance Mark	Examples
1	PAS 015 (2011)	AND MUST HAVE BSI Kitemark  Or Inspec IC Mark 	
2	VG1 01.040 (2014-12)	AND MUST HAVE BSI Kitemark  Or Inspec IC Mark 	
3	ASTM F1163 (2004a or 04a onwards)	AND MUST HAVE SEI mark 	
4	SNELL E2016	AND MUST HAVE Official SNELL label and number 	
5	AS/NZS 3838 (2006 onwards)	AND MUST HAVE SAI Global mark 	

IMPORTANT INFO FOR CROSS-COUNTRY ACTIVITIES: Only a "Jockey Skull" of an even round or elliptical shape with a smooth or slightly abrasive surface, having no peak or peak type extensions may be worn for any XC activity. Noticeable protuberances above the eyes or to the front, not greater than 5mm, smooth and rounded in nature are permitted. A removable hat cover with a light flexible peak may be used.

HEAD CAMS: When hats are tested against the requirements of a standard, they are done so with no extra additions on the hat i.e. with no head cam attached. Therefore, it is currently not known how the addition of a protuberance such as a head cam, effects how the hat would respond during an impact. Therefore, the use of HEAD CAMS are not recommended at any Approved Centre activity. This includes use on the head, chest, bridle or any other part of the horse or rider. HEAD CAMS or any recording devices are not permitted for use during BHS Assessments. This includes use on the head, chest, bridle or any other part of the horse or rider.

SNELL E2001 and PAS 015 (1998) are no longer accepted.

Jodhpurs/Breaches are ideal for riding however if these are not available leggings or fitted tracksuit pants will fit the bill. Jeans or clothing which does not permit free movement are not suitable. Shorts or loose bottoms are not suitable as they can flap and scare the horse. Rain coats are highly recommended. All riders must have their shoulders, torso and stomach covered. Riding sleeveless is not permitted under any circumstances. This is an outdoor sport so there is a reasonable chance of rain at some point. Rain coats and top half clothing must fasten so as not to be loose and flapping.

5. Hair and Jewellery

Long hair should be tied back in a low pony tail. No jewellery especially piercings should be worn at any time around the yard or riding.

This policy is in place for client safety and will be applied to all cross country riding. If riders do not meet the criteria laid down this policy they will not be permitted to participate in any cross country activities under any circumstances. At the discretion of our coaches riders who are not of a suitable standard will not be permitted to participate in cross country activities.
